MEMORANDUM FOR THE RECORD

SUBJECT: OSS Records

25X1A Phoned [REDACTED] in TSD concerning the current location of any OSS material TSD once held in its offices. He informed me that they have no OSS records on hand at present and that what material they did have before was turned over to RID several years ago and was probably retired to the Records Center.

25X1A I phoned [REDACTED] in DDP/RID and he gave me a list of volume figures he had given to Walter Pfortzheimer. He explained that RID keeps 1,796 cu. ft. of OSS files on hand for Day-to-Day requests. The remaining 4,151 cu. ft. (this includes 100 ft. of Gen. Donovan files from his wife) have been retired to the Records Center.
25X1A [REDACTED] in GE-58 handles these records.

I discussed the subject with [REDACTED] at the Records Center and he explained that beside the material in RID and with the DDP Office records in the Center he has a few groups of OSS material in the Agency Archives. 25X1A

I visited Mr. Pfortzheimer in his Historical Intelligence Collection Office at Headquarters next to the Library and found that he has several shelves of OSS Files which he considers too valuable to give to Agency Archives or DDP.

A memo listing these several collections was prepared and sent to the Chief, Support Services Staff.

[REDACTED]
CIA Records Administration Officer 25X1A
